Plymouth State University

- Bachelor of Science in Web Management and Internet Commerce (Interdisciplinary Studies)
- Minor in English

Certifications

- Certified ScrumMaster® (CSM)
- Certified SAFe 5 Scrum Master (SSM)

PROFESSIONAL EXPERIENCE

Amadeus

[Rates Backend Team] Senior Technical Business Analyst

June 2023 - Present

This was a lateral move from the UI team with a new focus on backend technologies and processes.

[UI Team] Senior Technical Business Analyst and Certified Scrum Master (CSM)

December 2018 - June 2023

- Led daily standups, grooming sessions, sprint demos, retrospectives, and planning meetings to ensure efficient team collaboration.
- Managed end-to-end sprint planning and execution, balancing priorities and capacity restrictions.
- Served as Acting Team Manager before the current Team Manager role was filled.
- Continuously improved team performance by identifying and addressing areas for improvement during retrospectives.
- Developed and maintained technical documentation, including system sequence diagrams, business flow diagrams, and data dictionaries.

[UI Team] Technical Business Analyst and Certified Scrum Master (CSM)

August 2016 - December 2018

- Obtained Certified ScrumMaster® (CSM) certification and assumed Scrum Master responsibilities for UI development teams.
- Collaborated with Product Management to define product requirements and create user stories.
- Developed wireframes and UML diagrams to guide system design and development.

[UI Team] Technical Business Analyst

July 2015 - August 2016

- Authored technical documentation to support Developers and liaise with various teams.
- Worked closely with Intercontinental Hotel Group (IHG) as a customer-facing representative.

Thunderhead

IT Business Analyst

April 2012 - July 2015

- Developed a comprehensive training document and 100+ page SOP for a new sales and customer onboarding process in Salesforce.
- Designed and built a bulk user upload tool using Jive REST API, JSON, and Curl.
- Managed office IT expansion and relocation, ensuring seamless implementation of ISP services and infrastructure.
- Implemented Kaspersky end-point protection system and assisted HR with HCM implementation.

Note: The last ~10 years were noted for my resume. Prior to serving as a technical business analyst, I was a website designer/developer and digital marketing professional. Those roles also involved working with data, and various system integrations.

SKILLS

- Generative AI (Midjourney and ChatGPT 4 prompts): Course, book, and website generation use cases
- Project Management Tools: Jira, MS Project, Basecamp
- Wireframing: Axure RP Team Edition, Balsamiq Mockups
- UML: PlantUML syntax
- Front-end Development: HTML, CSS
- Databases: MySQL, PostgreSQL, Access
- CRM: Salesforce
- CMS: WordPress, Joomla, Drupal
- Adobe Creative Suite: Acrobat, Illustrator, InDesign, Photoshop
- Code Editors: Visual Studio Code, Notepad++
- Source Control / Git: Sourcetree, GitHub Desktop

ACHIEVEMENTS

Taught a graduate-level Business Analytics class in person at Southern New Hampshire University (two semesters: Summer 2023 and Fall 2023).
